

To whom It may concern

DATE: 29 January 2023

TO: CCCNA Board of Trustees & CCCNA Executive Committee

Subject: Constitution Amendment and Current EC for one more term

The current Executive Committee (EC) of the Cadet College Club of North America (CCCNA) has been performing its duties since the formation of the organization. The EC has been doing an excellent job in running the organization, helping it grows, building cooperative relationships with Cadet College Club Ltd. (Dhaka), organizing numerous reunions and picnic events despite the COVID pandemic, and strengthening the bonds among Ex-Cadets of different Cadet Colleges in North America.

As per the constitution, the term of the current EC is coming to an end soon, and it is time to decide how the organization will proceed for the next term (as per Constitution Article VIII – Sections 13 and 14).

Based on the excellent performance of the current EC, the members of the Advisory Board recommend that the current officials of the

CCCNA EC continues for an additional two-year term. All members of the Advisory Board agreed that it is important to maintain the strong momentum that Dr. K. Masudur Rahman (President, CCCNA) and his EC members have established. As the organization is still in its early stages, it requires continuity and stability to

achieve the goals already set and in progress by the current EC to help bring the organization to a more mature level.

However, the Advisory Board also recognizes the importance of developing new leaders who can take on responsibilities if any EC member vacates his or her position in the future. Therefore, the Board of Trustees and active members should identify potential candidates willing to join the EC as “shadow officials.” These shadow officials will assist current EC members and learn about the organization’s history, activities, plans, and strategies for the future. If any EC member decides to step down in the future, the assistant may be considered to fill the vacant position, unless there are objections from the EC.

As per Constitution Article VII (Administration and Offices), it is also proposed that the “President-Elect” position be removed. If an election is required, only the President position will be contested. No other positions will require election. The President will have the authority to form his own cabinet. The President will also have executive authority to make decisions without consulting the Executive Committee in emergency situations.

If any member is interested in a specific EC position at this time, they may make their intentions known to the Board of Trustees. The Board of Trustees will then follow the Constitution and By-Laws to conduct an election for that contested position if necessary.

The Board of Trustees will send a letter to all paid members informing them of the final decision regarding how the next EC will be formed.

Respectfully,

The CCCNA Advisory Board

Members:
